MEET EVERTS

With approximately 100 years of experience in producing, developing and selling latex balloons Everts offers a high level of expertise, quality and innovation.

All latex balloons are made of natural latex, also known as caoutchouc. The balloons are 100% biodegradable and are made without using any fillers, extenders, plasticizers or any cost reducing agents. Being in Malaysia, the production centre of balloon excellence is ideally located with proximity to some of the best quality natural latex growing areas.

Everts always aims for the highest quality standards and therefore all latex balloons live up to the EN71 (toy safety) and EN71-12 (Nitrosamines and Nitrosatable Amins) testing. The tests are done inhouse, as Everts is one of the few producers who own the needed testing equipment. Besides, the facilities conform with all global ethical and safety standards (BSCI and SEDEX).

Keeping in mind that creating decorations could mean using thousands of balloons, Everts designed a decorator range to be as 'smooth' and 'hands-on' as possible. With longer necks and a soft but firm structure a feeling of comfort while working with the balloons is ensured. To keep up with new ideas, trends and designs Everts regularly updates the range of balloons.

The balloons dispose of excellent helium and air retention due to a high-tech and sophisticated molecular cross-link which creates a high-quality barrier, reducing gas permeability. Low burst levels are achieved by great elasticity of the rubber film. Long helium flotation or air inflation results in long lasting decoration.

MEET ANAGRAM

With more than 40 years of experience Anagram leads the world in making balloons fun with consumer-inspired – and inspiring - product development, industry-expanding innovation and strong, value-added partnerships.

Focused on foil balloons Anagram distributes in more than 100 countries. The integration of product development and manufacturing under one roof allows a consistent management throughout all channels for all products.

Anagram has the broadest product offering in industry with innovative designs, a large portfolio of licenses and the widest array of balloon formats at all price points. Trend & colour design teams with over 125 artists take care of continuously refresh lines and innovations. In addition to that retail merchandising and channel development are essential success factors to offer perfect products for all sales channels.

Anagram aims for high quality standards. Vendor and material qualification, incoming inspection on all materials, extrusion coating testing, inspection prepress process and controls guarantee that high level of quality.

We hope you enjoy our decorator balloon book with

our great range of latex and foil balloons for your

successful decorator business.

DON'T LET GO!

We as a company place great value on nature. We wish to protect the environment from unnecessary litter. That's why we ask consumers to keep latex and foil balloons securely with them - don't let them go into the sky and dispose of the products correctly. We recommend using balloon weights to guarantee their remaining on the ground. We also show & promote this to our customers in training sessions, in advertisements, and on our packaging by using the following symbols:

Air filled latex and foil balloons provide a great and economically alternative to costly helium filled ones. PREMIUM is offering a unique system to support these air filled foil and latex balloons. By connecting the MaxiStick© II with a MaxiCup© II and either a MaxiBase™ or a MaxiBase™ Magnetic, foil and latex balloons inflated with air can be displayed at retail easily.

This Bar Sealer enables you to seal all non-valved foil balloons and to create custom seals in larger balloons if desired.

Fully temperature adjustable, it will give a perfect seal without over-sealing or melting the balloon. Comes complete with full operating instructions and repair kit.

Premium FoilPro™ features and benefits...

- ✓ Uses Premium's 'Cool Aire® Technology' with our special low-speed motor to inflate with cooler air. No risk of damaging self-sealing valves and eliminates topping up when air cools down!
- ✓ Hands-free foot pedal inflates multi-compartment foils fast and easy.
- ✓ Flexible extension hose allows simple inflation of all valve compartments.
